

Region VII Virtual Biopreparedness Course

October 7, 2020 | 8:00 am – 6:00 pm | Zoom

This course will present information for Region VII healthcare providers, laboratory workers, long-term care facilities, emergency responders and Public Health on Special Pathogen diseases such as COVID-19.

It will describe how to Identify, Isolate and Inform, and include information on disinfection, PPE, staff resiliency, long-term care considerations, laboratory concerns, EMS and transportation. It will conclude with lessons learned in Missouri, Kansas, Iowa and Nebraska and give participants an opportunity to ask questions of the panel of presenters.

This course will be offered in four separate sessions and continuing education credits will be provided for attending each session.
